

## How to Set Up or Link Okta Verify on a New Mobile Device

To set up Okta Verify on a new phone, please follow the steps below:

### Step 1: Access Your Okta Account

Open Google Chrome and navigate to <https://compass.okta.com>.

Log in using your Compass credentials.

### Step 2: Navigate to Okta Settings

In the upper right corner, click on your name.

Select Settings from the dropdown menu.

### Step 3: Begin Device Enrollment

Under the Extra Verification section, click Set up another next to Okta Verify.

Your currently enrolled device will receive a push notification from Okta Verify—approve this prompt to continue.

After approval, select Set up to generate and display the QR code on your screen.

### Step 4: Set Up Okta Verify on Your New Device

On your new phone, download and install the Okta Verify app from the App Store (iOS) or Google Play Store (Android).

Open the app and tap the '+' (plus) icon to add a new account.

Scan the QR code displayed on your computer screen using your phone's camera.

### Step 5: Complete Configuration

When prompted, allow the app to:

Access your camera (select Yes)

Send notifications (select Yes)

Choose Organization as your Account Type.

If prompted to add an account from a different device, select Skip.

Finally, confirm by selecting Yes, Ready to Scan if prompted again.
